AVITA

Serving Northeast Georgia Region

Avita Community Partners, formerly Georgia Mountains Community Services, is a public agency formed by the 1993 Georgia State Legislature to serve persons experiencing the disabling effects of mental illness, developmental disabilities, and substance use disorders.

Some of our partners include:
Courts, Jails, Schools, Federal Qualified Health Centers, Hospitals

Avita's mission is to improve quality of life for persons with behavioral health and developmental disabilities.

Adult Behavioral Health Programs provide psychiatric treatment, counseling, and other recovery support services for adults with mental illnesses, emotional disorders and substance use disorders.

Behavioral Health Crisis Center for adults (BHCC) offers 24/7 walk-in crisis services, Peer Living Room, 23-hour Observaton Unit, and Crisis Stabilization Unit (CSU). The CSU offers short-term residential care for psychiatric stabilization and alcohol/drug detoxification with a speciality unit for those with co-occurring I/DD. This is a less restrictive and cost effective alternative to hospital care for persons experiencing a behavioral health crisis.

Services are based on individual needs and available resources. Fees can be paid by clients, family members, Medicare, Medicaid, Veterans Administration, and commercial insurance. Funding is also provided by the Georgia Department of Behavioral Health and Developmental Disabilities. Some individuals may qualify for a reduced rate by supplying information to substantiate their financial situation. A reasonable charge is set for services offered. No one is turned away due to inability to pay.

Case Management, Community Support & Psychosocial Rehabilitation Services provide outreach, resource coordination, and rehabilitative skills training services to assist persons with severe and persistent mental illness maintain safe and stable community housing, independent living skills, and access to community services.

Peer Support Program is provided by Certified Peer Specialists who have progressed through their own recovery and now can offer help to other adults with severe and persistent mental illness.

Assertive Community Treatment (ACT) provides a 24 hours 7-days a week community-based behavioral healthcare for persons living with a severe, persistent mental illness who have not been effectively supported with traditional clinic-based treatment services.

HIV Early Intervention Services provide testing for human immunodeficiency virus (HIV) and Hepatitis C. Counseling services and education related to HIV and Hepatitis C are also available.

Substance Abuse Intensive Outpatient Program & Outpatient Services provides individual and group counseling. This is a cost effective alternative to hospital or residential treatment for persons with a substance use disorder.

Community Housing Programs provide outreach and 7-days a week support to help individuals obtain and maintain optimal independent living in their community.

Supported Employment Programs assist persons with behavioral health and developmental disabilities with finding, getting, and keeping a job. To accomplish this, Avita partners with area employers to identify opportunities, provide training, and ongoing supports that enable success.

Women's Treatment & Recovery Support (WTRS) is a residential addiction treatment program for women and includes therapeutic child care for children under 12 years old. WTRS is funded by the Georgia Department of Family & Children Services (DFCS).

American Sign Language (ASL) Project employs ASL-fluent staff to provide specialized behavioral health services for persons who are deaf or hearing-impaired.

Emerging Adults specialized supports for individuals ages 16-26 with, or at risk for Mental Health challenges.

Individual, Family & Group Counseling Services provide supportive psychotherapy for persons with mental illness and addictive disease, and brief therapy for persons experiencing a crisis related to an emotional or adjustment disorder.

Community Support Team (CST) is an intensive behavioral health service for individuals with severe mental illness living in rural areas who require a higher level of care than traditional outpatient services.

Accountability Court Programs are criminal justice reform initiatives established to provide treatment in lieu of incarceration for nonviolent offenders with a behavioral health disorder.

Medication Management Services provide physician, nursing, and pharmacy services for persons with severe mental illnesses.

Youth Services provides treatment and support for children and adolescents, and their parents or guardians, with behavioral, emotional, and substance use disorders.

Outpatient Mental Health Services provide psychiatric treatment and counseling for youth and their families in community-based clinics and schools. Staff work with children and adolescents to enhance their mental, emotional, and social functioning.

Adolescent Substance Use Disorders provide early intervention and counseling for youth and their family.

Child/Adolescent Clubhouses are unique after school and weekend programs that provide recreational alternatives as well as counseling and support services for at risk youth in a safe and supportive environment.

Autism Spectrum Disorder (ASD) Services utilize the principles of applied behavior analysis (ABA). Families of individuals with ASD are now able to access adaptive behavior treatment services through any of Avita's outpatient clinics across the region. The Autism Treatment Program is currently open for children, adolescents, and adults under the age of 21.

Developmental Disability Programs

enable adults with intellectual and developmental disabilities to participate in communities activities, and be as independent as possible. A key priority is to support persons served in perusing their life goals and dreams, to facilitate access to community activities and opportunities, and to enable their giving back to community through employment, volunteer work, or other opportunities.

Community Access Services provides opportunities and support that enable individuals to participate in a variety of community life experiences and to optimize independent living skills.

Community Living Supports are in-home services designed to enable IDD adults to lead an independent life while remaining in their own home or with family. CLS services are tailored to meet the individuals needs and preferences while enhancing their daily life.

Family Support Services assist families in obtaining specialized medical supplies, equipment, and other assistance that focuses on helping families with difficulties.

Respite Services are individuals or families who can give short-term relief to family members and other caretakers who need a break by caring for their loved ones with special needs on a temporary basis.

Host Family Services are provided by caring families who welcome persons with a developmental disability into their home and support him or her with care, dignity, and respect and provide a safe living environment.

Avita proudly offers the **Yellow Ribbon Suicide Prevention** training free of charge to schools and community groups.
